

NEPTUNE CHALLENGE AR FLUID ROWER

Delivers the sight, sound and feel of real on-water rowing in your home. Exceptional performance and quality without the price tag!

Compact Platform

We challenged ourselves to develop a compact and durable platform for the home market, to deliver our patented Adjustable Fluid Resistance, made famous by our range of commercial Rowing Ergometers. Mission accomplished! Easy movement on large transport wheels and stands for storage in just 53x51cm (21x20"). Try out our impressive Neptune Challenge AR (**Adjustable Resistance**) Fluid Rower and you will see what we mean.

Comfort Assured

Industry best on-water rowing emulation with natural catch and feel. **Adjustable resistance** at the turn of a dial, from feather light to Olympic challenge. Pivoting footplates that improve the ergonomics for less flexible or deconditioned users. Shaped and textured seat slides smoothly and ergonomic handle reduces strain on wrists and elbows.

The Neptune Challenge AR Fluid Rower is designed to thrive in small spaces while providing you with one of the best low impact, whole body workouts. This easy setup, easy move, easy use, maintenance free, durable and fun exercise option ticks all the boxes.
